AERMOD-Ready Station Data

Lakes Environmental offers **AERMOD-ready meteorological station data in the United States**. Our team of expert meteorologists will prepare your order using station met data as follows:

- **Surface Station Data**
TD-3505 hourly surface data from the U.S. National Climatic Data Center (NCDC)
- **ASOS Wind Data**
1-minute and 5-minute ASOS data (where applicable)
- **Upper Air Station Data**
NOAA FSL radiosonde data
- **Land Use Data**
NLCD GeoTIFF data

Not sure what meteorological stations are available?

Use our convenient online quotation request form to search for available nearby surface and upper air stations.

You won't have to do any work!

Your order will include **full AERMET processing** including **AERSURFACE** and **AERMINUTE** (where applicable). The following AERMOD-ready met files will be delivered to you:

- Surface met data file (*.SFC)
- Profile met data file (*.PFL)
