

**When choosing your fellowship,  
everything matters.**

# We're Changing Today and Building Tomorrow. Join Us!

When you see what's happening at Nationwide Children's Hospital you'll see why everything matters when choosing a fellowship program. It's all for our patients - each scientific breakthrough, every investment in clinical programs and every world-class physician recruited. When you choose to train here, you are choosing to be an integral part of one of the most advanced pediatric hospitals in the world.

Nationwide Children's Hospital has once again made *U.S. News & World Report's* Best Children's Hospital Honor Roll, a distinction awarded to only 10 children's centers nationwide. The 2020-21 Honor Role designation makes the sixth consecutive year the hospital has received this recognition.

About Nationwide Children's

Founded by a determined group of women in 1892, Nationwide Children’s began as a local charity to serve a dozen very ill children. Throughout the following century, this tiny, community-funded mission matured into a health care system that is one of the preferred providers of pediatric health care in America. Our hospital is uniquely dedicated to addressing social determinants of health, quality and patient safety, genomic medicine, behavioral health and population health. The intentional recruitment of a diverse workforce that mirrors our patient population is crucial to our success in these initiatives. Similarly, as we train the next generation of talented physicians and researchers, we must embrace diversity as a core value.

Nationwide Children’s is one of the nation’s largest not-for-profit freestanding pediatric health care networks providing wellness, preventive, diagnostic, treatment and rehabilitative care for infants, children and adolescents. Today, the 1,400 medical staff and 12,000 employees at Nationwide Children’s remain true to the original mission of providing care regardless of a family’s ability to pay. As home to the Department of Pediatrics of The Ohio State University College of Medicine, a wealth of opportunities are available for fellows. In addition, the Abigail Wexner Research Institute at Nationwide Children’s is one of the largest pediatric research centers in the United States. See page 11 for for more information about the Abigail Wexner Research Institute at Nationwide Children’s.

Our Fellowship Programs

Pediatric Medical Subspecialties

- Academic General Pediatrics
- Adolescent Medicine
- Adult Congenital Heart Disease
- Advanced Heart Failure/Cardiac Transplant
- Advanced Noninvasive Cardiac Imaging
- Allergy Immunology
- Bone Marrow Transplant
- Child & Adolescent Psychiatry
- Child Abuse Pediatrics
- Childhood Obesity and Bariatric
- Clinical Laboratory Genetics and Genomics
- Clinical Neuro-oncology
- Clinical Neurophysiology
- Clinical Pediatric Pathology
- Developmental Behavioral Pediatrics
- Gastroenterology Motility
- Gene Therapy
- Hemostasis Thrombosis
- Hospital Medicine
- Host Defense
- Medical Biochemical Genetics
- Neonatal Feeding Disorders
- Neonatal-Perinatal Medicine
- Cardiology
- Critical Care Medicine
- Dermatology
- Emergency Medicine
- Endocrinology
- Gastroenterology
- Headache
- Hematology-Oncology and BMT
- Infectious Diseases
- Interventional Cardiolgy
- Nephrology
- Neurocritical Care
- Palliative Care and Hospice
- Pathology
- Pulmonology
- Rehabilitation Medicine
- Rheumatology
- Sarcoma
- Sports Medicine
- Stroke
- Urgent Care

Surgical

- Adolescent Bariatric Surgery
- Limb Lengthening and Reconstruction
- Minimally Invasive Surgery
- Pediatric Colorectal Surgery
- Pediatric Neurosurgery
- Pediatric Ophthalmology
- Pediatric Orthopedics
- Pediatric Otolaryngology
- Pediatric Otolaryngology-International
- Pediatric Pelvic Reconstruction
- Pediatric Plastic and Craniofacial Surgery
- Pediatric Surgery
- Pediatric Urology
- Surgical Critical Care

Anesthesiology

- Comprehensive Pediatric Pain
- Pediatric Anesthesiology
- Pediatric Anesthesiology-International
- Pediatric Cardiac Anesthesiology
- Pediatric Regional Anesthesiology
- Quality Improvement Anesthesiology

Radiology

- Cardiac Radiology
- Interventional Radiology
- Neuroradiology
- Pediatric Radiology

Advanced Training Fellowships

- Craniofacial Speech Pathology
- Clinical Informatics
- Quality and Safety Leadership
- Craniofacial Speech Pathology

Facilities

Nationwide Children’s Hospital is a 12 story hospital with an additional 3.2 million square feet of clinical space. Our campus offers an unparalleled opportunity to practice in state-of -the-art facilities that define what’s possible in patient care. While Nationwide Children’s is one of the largest children’s hospitals in the nation, we are committed to continuing to grow to meet the needs of children everywhere. Our estimated \$730 million, 11 project, expansion plan continues as we enhance and develop infrastructure and expanded space for clinical care and advanced research.

MASTER FACILITIES II

EXPANDING CARE:

- 1. Hospital, building out levels two and seven
- 2a. Livingston Ambulatory Center
- 2b. Parking Garage for Livingston Ambulatory Center
- 3. Childcare Center, renovation
- 4. Livingston Park Enhancements

RESEARCH:

- 5. Research Building III, building out levels two and three
- 6. Research Building IV

INFRASTRUCTURE:

- 7. Faculty Office Building
- 8. Near East Office Building and Garage
- 9. Energy Plant
- 10. Conference and Data Center

BEHAVIORAL HEALTH PAVILION:

- 11a. Behavioral Health Pavilion
- 11b. Parking Garage for Behavioral Health

Our third research building consists of 225,000 square feet and six floors of state-of-the-art bench laboratory space, sophisticated support facilities and ample office, support and administrative space. This adds to 375,000 square feet of existing research space.

*Right: The Livingston Ambulatory Center offers Adolescent Medicine, Behavioral Health, The Center for Healthy Weight and Nutrition, Dental Clinic, Laboratory services, Physical Therapy and more.*

Our hospital cares for over a million patients every year.

Critical care rooms have the latest technology to optimize clinical practice and patient safety.

Points of Pride

Outpatient Visits

Total Visits (excludes home health): 1,562,983  
Subtotal Outpatient Visits: 1,544,801

Outpatient Visits	Totals
Observation Cases	11,105
Outpatient in a Bed Cases	6,620
Emergency Department	94,045
Urgent Care <i>(includes Main Campus, Dublin, Westerville, East Columbus, Canal Winchester, Marysville and Hilliard)</i>	158,350
On-site Outpatient Diagnostics/Therapy	240,315
Off-site Outpatient Diagnostics/Therapy	381,149
Primary Care Clinics <i>(includes on-site and off-site)</i>	196,285
Specialty Care Clinics <i>(includes on-site, off-site and dental)</i>	406,827
Outpatient Surgery <i>(Main OR, Surgery Center, WSC, Dental, GI, Procedure Center)</i>	50,105

Inpatient statistics

Inpatient Discharges: **18,182**  
Average Length of Stay (Days): **8.6**  
Licensed Beds: **527**  
Leased Off-site Beds: **146**  
Patient Days: **156,922**  
Gross Patient Revenue (Hospital Only):  
**\$2,810,593,000**

Graduate Medical Education  
Statistics

- **73** Fellowship Programs
- **154** Fellows
- **142** Medical/Surgical Fellows
- **12** Medical/Surgical Fellows in Combined Programs (Nationwide Children's with The Ohio State University)

### World-Class Faculty

Nationwide Children’s is a pre-eminent pediatric health care facility that manages the most complex of diseases and treats the sickest of patients. Through our innovative research and clinical programs, we provide tertiary and quaternary services that attract patients from across the country and around the world. To continue achieving the best outcomes for all children, we are committed to the education and training of the next generation of outstanding pediatric health care providers. Our faculty include nationally and internationally known NIH-funded researchers, experts in a full range of academic domains and leaders of national professional organizations. Our world-class faculty are dedicated to sharing their expertise with peers across the country and around the globe, as well as with the next generation of outstanding health care providers who have chosen to train at Nationwide Children’s.

### Clinical Training

We offer high-quality, nationally recognized pediatric fellowship programs in a wide variety of specialties. As one of the largest pediatric hospitals in the nation, Nationwide Children’s Hospital logs more than 1.5 million patient visits every year from all 50 states and 45 countries worldwide. We have one of the country’s largest pediatric ambulatory networks, and operate one of the busiest Emergency Departments in the country. We are one of the largest neonatal centers in the nation, dedicated to treating, and ultimately preventing prematurity and neonatal diseases. Our large patient population with significant volumes of surgical and medical patients provides fellows with a tremendous breadth of experiences. Prospective fellows choose Nationwide Children’s for this next stage in their career because of the range of conditions and diversity of patients; the faculty and their commitment to education; and the resources devoted to research and education to advance the practice of pediatric medicine.

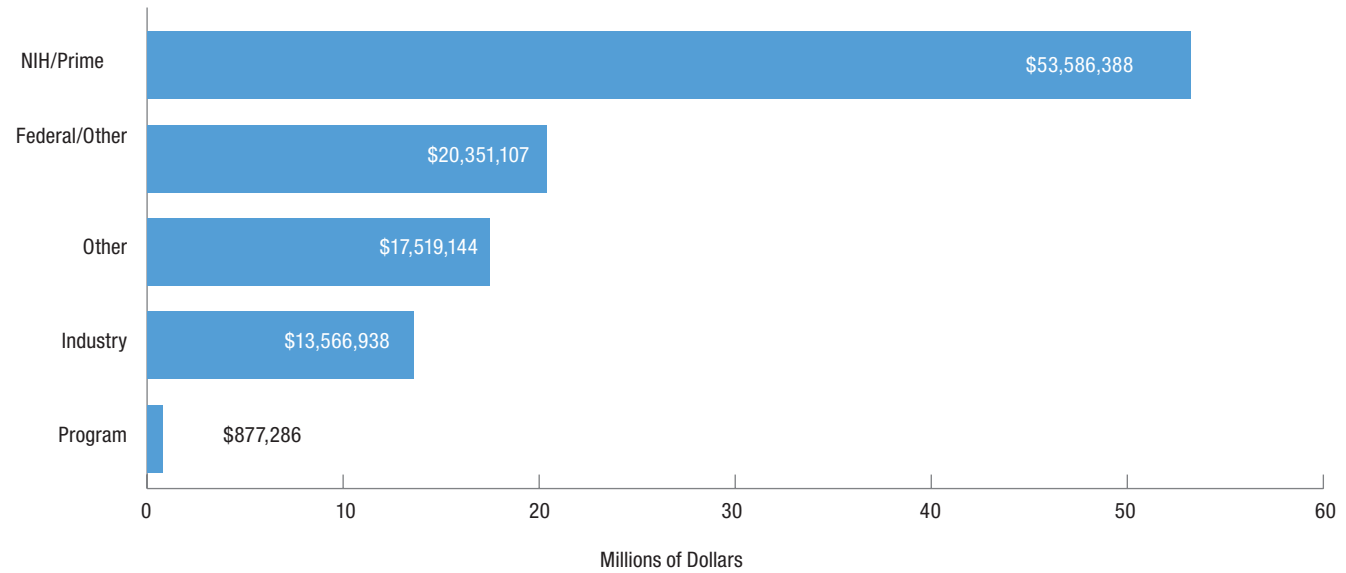

### The Abigail Wexner Research Institute at Nationwide Children’s Hospital

The Abigail Wexner Research Institute at Nationwide Children’s Hospital is organized into centers of emphasis and the Institute for Genomic Medicine, all of which facilitate interdisciplinary team science by transcending traditional academic boundaries. The structure supports discovery, enabled by outstanding shared resources. Each center or institute is home to talented faculty members, staff, graduate students, residents, postdoctoral fellows and other students.

- Battelle Center for Mathematical Medicine
- Biobehavioral Health
- Cardiovascular Research
- Childhood Cancer and Blood Diseases
- Clinical and Translational Research
- Gene Therapy
- Injury Research and Policy
- Innovation in Pediatric Practice
- Institute for Genomic Medicine
- Microbial Pathogenesis
- Perinatal Research
- Regenerative Medicine
- Vaccines and Immunity

### The Research Institute at Nationwide Children’s Awards

Total: \$105.9 million (\$105,900,863)

Research Infrastructure

Research Building I (Wexner Institute for Pediatric Research)

- 140,000 square feet
- Contiguous with Nationwide Children’s

Research Building II

- 164,016 square feet
- 200-seat amphitheater
- Contiguous with Nationwide Children’s Hospital’s clinical facilities

Research Building III

- 238,914 square feet
- 75-seat conference facility
- LEED certified for sustainable green building design

Nationwide Children’s Hospital Square Footage (Net) Space

- Main Campus Inpatient: 406,751
- Outpatient: 185,030
- Research: 539,510
- Education & Support Areas: 673,739
- Parking Structures (4): 1,146,107
- Owned Sites: 341,079 (Outlying Outpatient and Support Buildings)
- Owned Sites: 654,004 (Surrounding Main Campus)
- Lease Sites: 371,156 (estimated) (Care Centers, ChildLabs and Support Areas)

Fellowship Core Curriculum

Through educational workshops and didactic sessions, the Nationwide Children’s Fellowship Core Curriculum addresses career-related topics, leadership skills, professionalism, effective communication, practice-based learning and improvement, systems-based practice, hand-overs, and stress and fatigue management. The Core Curriculum serves as the educational foundation for topics that transcend individual subspecialties, and also provides a community to promote comradery and peer learning amongst all hospital fellows.

The Core Curriculum supports fellows in leading interprofessional teams, providing high quality care and promoting health equity. Fellows also receive robust education in research and academic scholarship.

The success of our fellows is evident in the academic and research accomplishments. In the past academic year alone, our pediatric fellows authored over 30

publications in peer reviewed journals, had more than 100 presentations at national meetings, and received numerous grants and national awards.

Advanced Degree Programs

Fellows at Nationwide Children’s have the opportunity to take advantage of additional education at The Ohio State University. The Department of Pediatrics offers funding for fellows interested in obtaining a Master’s degree, such as Master of Public Health (MPH), Master of Medical Science (MSc), and Master of Education (MEd). In addition, a Master of Biomedical Education ([ehe.osu.edu/educational-studies/biomedical-education/ma](http://ehe.osu.edu/educational-studies/biomedical-education/ma)) is available.

## About Columbus

With a population of 780,000, Columbus is the 15th largest city in the United States. The city is perfect for active lifestyles, having recently invested \$20 million to develop a growing system of bike and fitness trails that connect the suburbs and river trails to downtown's \$44 million riverfront park system restoration. Columbus is recognized for its neighborhoods ranging from historic to hopping, for its fabulous casual and fine dining venues, shopping experiences, museums, zoo and more. If you are a sports enthusiast, there is no offseason in the Columbus area with a wide variety of events and venues. In addition, Columbus is home to the NHL Columbus Blue Jackets, MLS Columbus Crew, MiLB Columbus Clippers, and The Ohio State University Buckeyes.

Columbus is diverse and home to one of the largest young professional networks in the country. There are several young professional organizations that regularly hold networking events, social and philanthropic activities. One of our city's

proud achievements is the diversity of its economic base. Columbus is at the heart of the largest concentration of population and economic activity in North America. Government, service, distribution, retail and manufacturing companies all make Columbus their headquarters. Columbus fosters an emerging tech-start-up and retail scene as well. Columbus is one of the world's leading centers for scientific and technological research with facilities at The Ohio State University, Chemical Abstracts Service, Online Computer Library Center, Battelle Memorial Institute and The Research Institute at Nationwide Children's.

Because of the diversity of educational and employment opportunities in Columbus, there are many options for a fellow's spouse or partner. We are happy to provide your significant other with networking assistance to find employment.

Visit [www.Columbus.gov](http://www.Columbus.gov), [www.ExperienceColumbus.com](http://www.ExperienceColumbus.com) and [ColumbusRegion.com](http://ColumbusRegion.com) to learn more about Columbus.
