

# Pediatric Residency Program Highlights

**OUR TRACKS** 

Our diverse 3-year tracks offer a chance for training in an environment best suited to individual interests:

- The Categorical Pediatrics Track is the traditional residency training track, allowing residents to tailor their elective experiences to an individualized learning plan.
- The Primary Care Track residents spend 10 months at Children's Pediatricians & Associates practice in Foggy Bottom, where they become an integral part of a primary care practice.
- The Leadership in Advocacy, Under-resourced Communities and Health equity (LAUnCH) Track, focuses on health disparities and the development of skills in health policy, advocacy, and community healthcare delivery.

The Research Track is for residents with substantial research experience and a desire to continue research efforts during residency All tracks have 24 months of pediatric training in common, ensuring that graduates are indistinguishable in their ability to provide

excellent general pediatric care and are equally qualified to pursue subspecialty work if they so choose after residency.		
	OUR PATHWAYS	
Our pathways provide an optional opportunity for residents to structure their selective, elective, and research time to prepare for a particular career path or hone a set of professional skills. Participation can range from one experience in one pathway (or mixing and matching among several pathways) to graduating with a certificate in a particular pathway.   Child Health Advocacy and Public Policy Primary Care Careers   Research Global Health   Hospital-Based Careers Medical Education		
CONTINUITY CLINIC		
Residents are scheduled for one half day a week at a designated site throughout their residency. Residents choose among a variety of options: The Children's Health Center,, CP&A Foggy Bottom (primary care track), urban community-based clinics, a managed care organization, or multiple private offices.		
REACH PROGRAM		
One half day a week as a PL-2 and PL-3 is designated for the pursuit of a personal interest in an area of research, education and advocacy in child health. Residents apply for REACH time at the end of intern year.		
PL-1	PL-2	PL-3
CALL STRUCTURE		
1 week of nights at GW NICU 6-8 weeks of nights (in two-week blocks) Average 57 workhours/week	1 week of nights on PHAST 2-3 long calls and 4-5 nights on PICU 1-2 long calls and 3-4 nights on NICU 4-6 weeks of night team Average 58 work hours/week	2-3 long calls and 4-5 nights on PICU 1-2 long calls and 3-4 nights on NICU 2-4 weeks of night team Average 53 work hours/week
Inpatient teams and residents on clinic/electives take calls on weekends during a given rotation		
SALARY 2020-2021 (includes meal stipend)		
\$65,818	\$69,787	\$73,807
EDUCATIONAL STIPEND		
\$1,350 + fee for USMLE Step 3 (if taken by January of PL-2 year)	\$2,100	\$3,400 + \$2,000 for Pediatric Board Certification Exam
American Academy of Pediatrics membership dues all three years 1 unrestricted Medical License (for any state) + DEA and Controlled Substance Number fees		
VACATION/DAYS OFF		
Intern Retreat, Beach Week	PL-2 Day Off	PL-3 Day Off

## All residents:

2 two-week blocks of vacation + 4 day holiday (Thanksgiving, Christmas, New Year's, or Alternate) + Federal holidays (if not on-call) + 3 personal days + 7 educational days + 12 sick days yearly

BENEFITS

401-K: up to 15% of salary; CNMC matches 100% up to 5% of salary during PL-2 and PL-3 years Group Life Insurance, Health Insurance, Dental Plan, Vision Plan

Stipend for lab coats and scrubs

New Resident Bonus/Relocation Stipend for PL1s (\$650) Annual transportation stipend (\$225) Discounted on-site parking

## **RESIDENT EDUCATION AT CHILDREN'S NATIONAL MEDICAL CENTER**

#### LECTURES/CONFERENCES:

- **Noon Conference**: Daily lectures within a year-long curriculum based on American Board of Pediatric content specifications, featuring high-quality, faculty-led lectures.
- **Professorial Rounds**: Weekly, case-based, highly interactive, multidisciplinary discussions with the goal of modeling attending-level clinical reasoning, critical thinking, and decision-making.
- Evidence-Based Medicine Journal Club: Sessions to developskills in critically analyzing articles and to incorporate current medical knowledge into daily clinical practice.
- **Board Review**: Weekly sessions led by second-year residents under the guidance of a faculty mentor with multiple-choice PREP questions presented with audience response units.
- **Resident Morbidity and Mortality Conference**: Monthly conferences presented in a case-based approach and designed to discuss adverse patient events and develop quality improvement initiatives.
- Morning Report: Case-based resident-led discussions that focus on clinical

and diagnostic reasoning as well as early management and treatment.

- Attending Teaching Rounds: Faculty-led didactic sessions occurring several times per week on all rotations.
- Chief Resident Lecture Series: Summer conference series held on Wednesday mornings (July-August) that focuses on practical clinical topics for new interns.
- **Mock Codes**: Bi-monthly, simulated codes for residents of all training levels to work together to hone clinical skills. ICU rotations conduct monthly multidisciplinary unit-based mock codes.
- Simulation Sessions: Monthly simulation sessions on inpatient teams held in a state-of-the-art simulation center.
- **NightTeamTeaching**: Nightly teaching sessions for our intern night team led by the night senior residents.
- Residents as Teacher/Senior Residents as Teachers Curriculum: An interactive, evidence-based, graduated curriculum for all second- and third- year residents that focuses on developing teaching skills.
- Advocacy Curriculum: Quarterly noon conferences didactic series augmented by optional elective opportunities for all residents.
- Intern Resuscitation Day: Full-day designed for interns to practice core resuscitation skills in a small group setting.
- **Research & Education Week**: An annual, hospital-wide venue for all staff to present their research; all third-year residents present REACH projects.
- NRP and PALS: Initial and recertification interactive trainings geared specifically toward residents while still fulfilling national standards.
- Intern Retreat: An annual three-day, two-night off site retreat for interns focused on understanding group dynamics, improving interdisciplinary interactions, honing teaching and feedback skills, and reinforcing inter- personal bonds.
- Quality Improvement (QI) Curriculum: Longitudinal, graduated curriculum that emphasizes basicQI concepts.

## LIBRARY RESOURCES:

- PubMed and Ovid (e-journal access)
- UpToDate, ClinicalKey, Cochrane Database, Pediatric Care Online
- Free searches conducted by library staff
- Interlibrary loans

## COMPUTER RESOURCES

- Laptop provided to every resident
- In-patient EMR Cerner
- Out-patient EMR E clinical works
- Remote access available

#### PUBLICATIONS (free to Residents)

- Pediatrics
- Contemporary Pediatrics
- Pediatrics in Review
- The Pediatric Infectious Disease Journal

## ADDITIONAL ASSETS

- Master Teacher Program
- Pediatric Resident Assistants
- Phlebotomy Services
- IV CrisisTeam

## <u>THE STAFF</u>

Physician-In-Chief: Mark L. Batshaw, MD Chair, Department of Pediatrics: Stephen J. Teach, MD, MPH Vice-Chair for Medical Education: Dewesh Agrawal, MD Residency Program Director: Aisha Barber, MD, MEd Associate/AssistantProgramDirectors: Sandra Cuzzi, MD; Olanrewaju Falusi, MD; Jeremy Kern, MD; Cara Lichtenstein, MD, MPH; Andrea Hahn, MD, MS; Edward Sepe, MD, MS Director of Diversity Recruitment and Inclusion:

**Director of Diversity Recruitment and Inclusion:** Enrique Escalante, MD, MS

GME Coordinator:

Jennifer Pomicter, MS **Residency Program Coordinator**:

- Lisa Mercado-Foster
- Program Associate:
- Lisa Mercado-Foster
- **Staff Assistant:** Kenya Spencer

## Chief Residents:

Sarah Durrin, MD, Jessica Hippolyte, MD, MPH;Kevin Lloyd, MD; Mary Mottla, MD
