All pricing and specifications in this catalog are subject to change without notice.

# American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN®

*90 Years of Caring for Children—1930–2020*

As you care for children's physical health, we know concerns about their emotional well-being may weigh heavily on you these days. But you have the power to make a critical difference for families struggling to make sense of life's ups and downs. Our latest mental health resources offer concrete guidance you can put into action to help us all get through this together.

- ***Pediatric Mental Health: A Compendium of AAP Clinical Practice Guidelines and Policies*** (page 17) comprises more than 30 of the latest AAP policy statements, clinical reports, and technical reports related to mental health.
- Two resources from Dr Ginsburg, ***Reaching Teens: Strength-Based, Trauma-Sensitive, Resilience-Building Communication Strategies Rooted in Positive Youth Development, 2nd Edition*** (page 20), and ***Building Resilience in Children and Teens: Giving Kids Roots and Wings, 4th Edition*** (page 37), help adults foster grace and grit in children.
- With some children returning to schools and child care environments that may look very different, ***Managing Behavioral Issues in Child Care and Schools: A Quick Reference Guide*** (page 21) helps child care professionals understand and deal with challenges in young children's conduct and social-emotional development.
- Finally, ***Quirky Kids: Understanding and Supporting Your Child With Developmental Differences, 2nd Edition*** (page 35), helps inform and encourage parents of children who may be developing atypically.

*As always, thank you for your dedication to the health of all children and for supporting the mission of the American Academy of Pediatrics.*

## Coding for Pediatrics 2021

A Manual for Pediatric Documentation and Payment, 26th Edition

The 26th edition of the AAP cornerstone coding publication has been completely updated to include all pediatric changes in CPT® for 2021—complete with expert guidance on their application. The book's many pediatric clinical vignettes, examples, and tips provide the added guidance needed to ensure coding accuracy and payment.

### This year's edition also includes

- Guidance on coding for COVID-19, vaping, and telemedicine
- Exclusive online content
- Continuing education unit quiz that can be accessed online
- Changes to reporting care management services and a care plan example
- New codes for transcatheter cardiac procedures
- Quick references to 2021 CPT and ICD-10-CM code changes
- Updated office and outpatient Evaluation and Management (E/M) codes

## Pediatric Coding Basics

An Introduction to Medical Coding

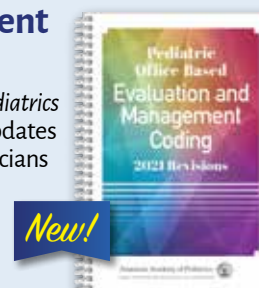

This new book was developed for pediatric health care professionals who are new to coding or have taken on additional coding responsibilities. It begins with an overview of medical coding, followed by a more detailed review of the different types of codes commonly used in pediatrics. It details how to effectively use codes together, and health plan policies and coding compliance. Earn an AAP Certificate of Completion after taking an online assessment.

## Pediatric ICD-10-CM 2021

A Manual for Provider-Based Coding, 6th Edition

This completely updated 6th edition includes all 2021 updates for pediatric ICD-10-CM codes as well as recently created COVID-19 coding guidance and a new chapter on codes for special purposes, such as vaping-related disorders. Hundreds of codes that apply to pediatrics have also been added to this new edition and an enhanced index has improved search functionality.

For pediatric provider, coder, and biller, here's the most helpful and easy-to-use manual on ICD-10-CM yet. Featuring a laser-sharp pediatric focus, it provides codes and guidelines in a simplified yet familiar format. The combination of hallmark features and easy-to-use format makes facing the challenge of accurate diagnostic coding easier.

This important guide condenses the vast ICD-10-CM code set into only pediatric-centered guidelines and codes. It has been reorganized to include the guidelines directly at the chapter and code level, helping ensure that coders always use the right codes in the right situation. Tabular, indexed navigation helps coders find needed items fast.

Call on top-rated telephone triage practice resources from Dr Barton D. Schmitt!

**AAP BEST SELLER!**

## Pediatric Telephone Protocols

Office Version, 16th Edition

Barton D. Schmitt, MD, FAAP

Telehealth and telephone care serve as important tools to connect with patients and families, especially when we are practicing physical distancing. This comprehensive telehealth resource is a must-have for thousands of practices and call centers nationwide.

From telehealth pioneer Barton D. Schmitt, MD, FAAP, this award-winning office essential efficiently steps triagers through more than **140** decision support protocols spanning **98%** of today's most common complaints. Also added to the 16th edition is a new section on skin/bites that includes 27 protocols.

With this must-have resource, you get proven prescriptions for phone care quality. You'll see benefits like

- Highlighted assessment questions that help you quickly evaluate patient problems and select the appropriate disposition: 911 call, ED referral, office visit, or home care
- Parent-reassuring home care instructions
- Medication questions, dosages, and recommendations
- Find-it-fast index helps to quickly zero in on caller concerns
- Detailed User's Guide serves as a valuable training tool

## DOODY'S CORE TITLE

## Neonatology for Primary Care, 2nd Edition

Editor: Deborah E. Campbell, MD, FAAP

Designed as an action-oriented working tool, the new second edition provides the essential practical knowledge needed to deliver optimal care to all neonates.

This reference covers maternal and fetal health, care of the newborn after delivery, breastfeeding, and follow-up care, plus primary care issues relating to infants requiring intensive care.

More than 40 chapters cover step-by-step guidance on what to do, when to admit, and when to refer.

#### New in the second edition

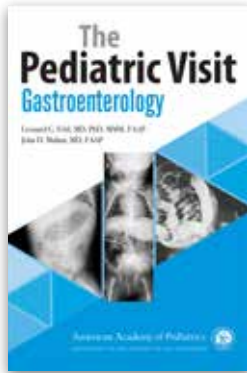

8 new chapters covering

- Prenatal Diagnosis
- Fetal Interventions
- Optimizing Nutrition for the Preterm, Very Low-Birth-Weight Infant After Discharge From Neonatal Intensive Care
- Newborn Immunizations and Immune Prophylaxis
- Balancing Safe Sleep and Other Recommendations for Newborns
- Vascular Anomalies
- Endocrine Disorders Manifesting in the Newborn Period
- Shared Decision Making Around Home Technologies

—Doody's Book Reviews™

## Bright Futures Tool & Resource Kit, 2nd Edition

This completely updated and revised toolkit is designed to accompany and support *Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents*, 4th Edition, the national standard for well-child care.

*Bright Futures Tool and Resource Kit*, 2nd Edition, provides pediatric professionals with an organized compilation of current forms and materials that relate to preventive health supervision and health screening for infants, children, and adolescents.

### Included in this must-have online resource are

#### Core Forms and Tools for Well-Child Visits Ages 0–21 Years

- Previsit Questionnaires\* (Supplemental questions are now merged in one form.)
- Visit Documentation Forms
- Parent/Patient Handouts\*

#### Additional Documentation Forms

- Initial History Questionnaire\*
- Medication Record
- Problem List
- Problem Visit
- Medical Screening Reference Tables

#### Additional Content

- Robust additional parent/patient education handouts selected specifically for each visit
- Links to commonly used developmental, behavioral, and psychosocial screening and assessment tools

\*Available in English and Spanish.

*“The new and interactive Bright Futures Tool and Resource Kit can help increase the completeness of previsit screenings, smooth visit workflow, and provide access to AAP-approved patient education materials, which help meet Meaningful Use goals, all through your computer, EHR, and patient portal.”*

—Jesse Hackell, MD, FAAP  
Pomona Pediatrics

## Berkowitz's Pediatrics A Primary Care Approach, 6th Edition

Editor: Carol D. Berkowitz, MD, FAAP

Edited by a leading primary care authority, this edition contains more than 155 (including **5 brand-new**) clinical chapters that review pertinent epidemiology and pathophysiology and then give concise guidelines on what symptoms to look for, what alternative diagnoses to consider, what tests to order, and how to treat your patient.

**New in the sixth edition**

- Five new chapters, including Health Systems Science, Social Determinants of Health: Principles, and Adverse Childhood Experiences: Trauma-Informed Care.
- Student worksheets corresponding to each chapter's case study questions are online in a user-friendly format so they can be completed to prepare for discussions.
- Case study questions have been enhanced and resources have been revised.

This is an ideal reference for pediatricians, family physicians, medical students, residents, residency program directors, physician assistants, pediatric nurse practitioners, and nurses and perfect for use in continuity clinics.

Advancing science  
for better nutrition.

#### DOODY'S CORE TITLE

### Pediatric Nutrition, 8th Edition

AAP Committee on Nutrition

Editors: Ronald E. Kleinman, MD, FAAP, and Frank R. Greer, MD, FAAP

Significantly revised and updated, the eighth edition provides the latest evidence-based guidance on the full spectrum of childhood nutrition issues.

More than 50 chapters cover the latest information on nutrient metabolism to support the normal development and health of infants and children who are well, those born with congenital anomalies or disorders of metabolism, and those with acute and chronic illnesses.

Tables and figures provide a ready resource for topics that impact practice, including the nutrient content of selected foods, the recommended daily nutrient requirements, the fortification and use of specialized infant formulas, and more.

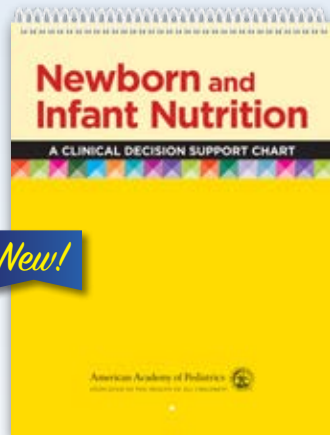

#### New in the eighth edition

- New chapter: Pediatric Global Nutrition.
- Other chapters have been completely reorganized, based on new information in nutritional science and new evidence-based guidelines recommending changes in practice.
- New policy statement on sugary drinks and new clinical reports on food insecurity, fruit juice consumption, fish and shellfish consumption, and use of donor human milk for the preterm infant.

### Newborn and Infant Nutrition

A Clinical Decision Support Chart

American Academy of Pediatrics

This all-new clinical resource provides valuable point-of-care decision support tools based on AAP policy for nutrition of newborns and infants.

A variety of the most important tables, guidelines, and algorithms in the new eighth edition of the AAP policy manual *Pediatric Nutrition* are collected here for easy reference in an enlarged, expanded, colorized format.

Includes crucial tools on topics such as Breastfeeding

Support, Parenteral Nutrition, Nutrition in Special Circumstances, Complementary Feeding, Food-Drug Interactions, Vitamin and Mineral Deficiency, Daily Reference Intakes and Upper Limits, and more.

The chart is presented in a spiral-bound "calendar" format, organized by handy, color-coded tabs.

### 5210 Pediatric Obesity Clinical Decision Support Chart, 3rd Edition

AAP Section on Obesity

Editors: Christopher F. Bolling, MD, FAAP, and Victoria Rogers, MD, FAAP

This convenient flip chart provides clinicians with point-of-care guidance on the assessment, prevention, and treatment of obesity in children older than 2 years.

#### Key features

- Step-by-step prevention, assessment, and treatment interventions for overweight and obesity in children
- Fifteen-minute obesity prevention and intervention protocol
- Updated hypertension evaluation and management guidelines
- Growth charts spanning birth to age 20 years, including body mass index—for-age percentiles
- Pharmacological treatment of hypertension
- ICD-10-CM coding information for obesity-related health services
- Feeding guide and sample meal options

## Preparticipation Physical Evaluation, 5th Edition

Authors: American Academy of Family Physicians, American Academy of Pediatrics, American College of Sports Medicine, American Medical Society for Sports Medicine, American Orthopaedic Society for Sports Medicine, and American Osteopathic Academy of Sports Medicine

The fifth edition guides health care professionals through the PPE process in the medical home for young athletes from middle school through college.

Includes recommendations on PPE timing, setting, and structure; medical history questions; and how to determine medical eligibility.

Contents cover physical examination and eligibility, systems-based examinations, cardiovascular problems, central nervous system, and more.

### New in the fifth edition

- New chapter on the transgender athlete
- New chapter on the female athlete
- New section on mental health
- Incorporating PPE into routine health supervision care
- English and Spanish versions of the History Form

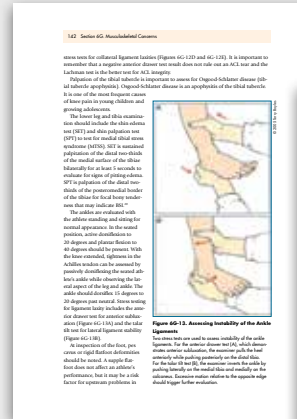

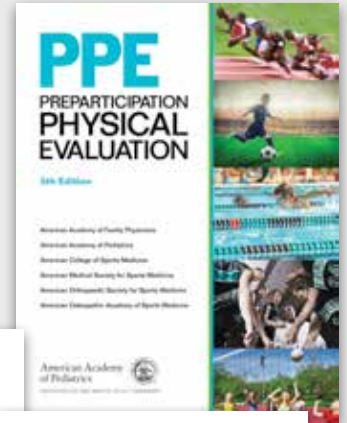

Paperback, 2019—240 pages

★★★★★  
4-Star Review

"I highly recommend this reference for pediatric residents or primary care physicians who treat young athletes. The added material in the second edition on injury prevention and sports-specific issues sets this book apart from many other books."

—Rebecca L. Carl, MD, MSCI (Lurie Children's Hospital)  
Daddy's Book Reviews

## Reaching Teens

Strength-Based, Trauma-Sensitive, Resilience-Building Communication Strategies Rooted in Positive Youth Development, 2nd Edition

Editor: Kenneth R. Ginsburg, MD, MS Ed, FAAP, FSAHM

Associate editor: Zachary Brett Ramirez McClain, MD

Now in its second edition, this groundbreaking multimedia resource integrates a trauma-sensitive model with the core belief that identifying, reinforcing, and building on inherent strengths can facilitate positive youth development.

- ✓ Access 400+ videos.
- ✓ Participate in individual or group learning.
- ✓ Earn CME/CEU credits.

### Key features

- A robust toolkit that helps youth-serving professionals *apply* the key principles found in positive youth development, resilience, and trauma-sensitive care
- A multimedia toolkit that uses **400+ videos**, written chapters, and group learning and discussion processes to reinforce learning
- Twenty-nine new chapters—95 chapters total

### New online platform includes

- Full book content plus references
- Expanded version of select chapters
- In-chapter access to videos and group learning and discussion

Tailored learning resources for different key audiences created in conjunction with subject matter experts

- Education
- Health care
- Juvenile justice
- Foster care
- Substance use programs and recovery
- Sports and physical recreation
- Settings that serve youth enduring homelessness, unstable housing, or human trafficking

**Earn CME credits/CEUs in medicine, nursing, health education, counseling, or social work.**

## Injury and Violence Prevention

A Compendium of AAP Clinical Practice Guidelines and Policies

American Academy of Pediatrics

Unintentional injuries are among the leading causes of death in U.S. children. However, the amount of attention paid to this public health crisis in both medical training and in practice remains relatively lower than that paid to other issues affecting the well-being of children.

This new compendium helps address these risks and provides the latest clinical guidance on protecting children from injury and violence both inside the home and throughout the community.

### Sections include

- Abuse and Suspected Abuse
- Firearms and Explosives
- Household Injuries
- Motorized Vehicle Safety
- Violence Prevention and Treatment
- And much more...

## Challenging Cases in Pediatric Hospital Medicine

Editors: Daniel A. Rauch, MD, FSHM, FAAP, and Snezana Nena Osorio, MD, MS, FAAP  
Associate Editors: Jennie G. Ono, MD, MS, FAAP, and Jennifer Oshimura, MD

Written by pediatric hospitalists and clinician-educators, this valuable new reference and learning tool features **50 real-life case studies** to expertly guide you through the types of cases seen by practicing pediatric hospitalists.

This engaging book covers a wide range of knowledge, both broad and specific, required in the hospital environment, while it focuses on important clinical competencies and today's best practices.

With its case-based format, this is both a valuable clinical tool and a superb learning and training aid for various levels of learners on a hospital medical team.

## PREP Self-Assessment Subscriptions

Choose PREP for lifelong learning, board exam study, and more. The format with case-based questions and critiques allows you to test yourself and stay current while you earn valuable credit.

All products are approved for Maintenance of Certification™ Part 2 credit by the American Board of Pediatrics (ABP) through the AAP MOC Portfolio Program.

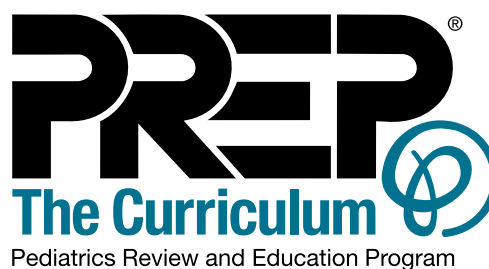

Approved for AMA PRA Category 1 Credit™.

## Group Rates Available

Save money on PREP by subscribing with your colleagues.

Keep your entire staff ahead of the curve with group rates on PREP Self-Assessments. Receive discounted rates when you order more than 10 subscriptions for one organization. For a custom quote, fill out the order form at [shop.aap.org/prep](http://shop.aap.org/prep).

## GENERAL PEDIATRICS

The 2021 PREP The Curriculum package provides comprehensive review and lifelong learning in general pediatrics. You can select topic areas for targeted study, compare your performance with performances of your peers, and review discussions of incorrect choices.

**PREP The Curriculum 1-year subscription consists of**

- **PREP Self-Assessment**

Includes more than 245 case-based questions with detailed explanations of the preferred response (**40 points of MOC Part 2**)

- **12 issues of *Pediatrics in Review*® journal**

Monthly CME and MOC journal featuring clinical articles and case scenarios packed with evidence-based information on the diagnostic and therapeutic management of diseases and delivery of pediatric care (**30 points of MOC Part 2**)

### Includes the following features:

- ✓ Confidence ratings allow you to create reports by confidence category.
- ✓ PREP Pearls summarize key practice points to expedite your learning.
- ✓ Customized practice mode—simulates timed exams.
- ✓ Includes references and direct links to *Pediatric Care Online*™ (PCO) resources. (PCO subscription needed to access full content).

## Vaping: Effects and Solutions

New!

Electronic cigarettes are the tobacco products most commonly used by youths in the United States. The use of e-cigarettes, also known as vaping or "JUULing," is a public health epidemic that has reached every state, community, and neighborhood in the nation and has threatened to wipe out the decades of progress made by public health experts in decreasing tobacco use. This custom collection compiles the most up-to-date information on e-cigarette topics that impact the pediatric population. Its reviews and research will assist pediatric health care professionals in identifying and treating adolescent use and exposure to e-cigarettes.

Paperback, July 2020—130 pages

## Quirky Kids

**Understanding and Supporting Your Child With Developmental Differences, 2nd Edition**

Perri Klass, MD, FAAP, and Eileen Costello, MD, FAAP

This classic has been fully revised and updated to reflect the recent significant changes in the recognition and care of children whose development doesn't go as expected. It includes new information about therapeutic interventions, managing comorbidities, and getting support for children with developmental differences at school. Additional information covers community resources and initiatives at hospitals and clinics that make life easier for children with developmental differences and their families. The authors also offer a stronger focus on self-care for parents in this new edition, with the pediatrician's perspective of supporting families as they go through the diagnostic process over time. The latest studies show that 1 in 6 children have a developmental disability of some kind—this guide is for the adults who love them and want to help them make their way in the world.

## Protecting Your Child's Health

**Expert Answers to Urgent Environmental Questions**

American Academy of Pediatrics

Editor in chief: Ruth A. Etzel, MD, PhD, FAAP

Associate editor: Sophie J. Balk, MD, FAAP

Parents concerned about the effects of environmental hazards on their children's health will appreciate this accessible Q&A guide. It provides essential information to help protect their children from toxins where they live, learn, and play, including information on food and water safety, air pollution, sun protection, lead, radiation, and pesticides. Broader issues such as climate change are addressed in addition to the day-to-day risks that children may be exposed to.
