GentlePro Infant Formula

Modeled after the complete nutrition
and gentleness of breastmilk

- ✓ Comfort Proteins®, small proteins that are **easy for tiny tummies to digest**
- ✓ Probiotic *B. lactis*, clinically shown to help **support your baby's developing immune system and digestive health**
 - Infants born by C-section may have lower levels of good bacteria in their digestive system. **Daily supplementation of *B. lactis* can help provide good bacteria, which may be beneficial for babies born by C-section**
- ✓ 2'-FL HMO†, a **prebiotic just like one of those found at significant levels in breastmilk**
- ✓ Expert recommended DHA for **brain and eye development**
